The 'end file'

The 'end' file, It marks the end of your computer, It will slowly consume all files on your computer...

It will grow, when consuming your computer's files.

The damage done by the file is irreversible...

You can't delete it, Otherwise, More will appear, and they will consume the whole computer, Any consumed computer hasn't been seen afterwards...

The file's a mystery to this day...

The location: C:\end
